

OMF Golf Tournament

Sponsorship Package

Message from the OMF Golf Committee Co-Chairs

Thank you for your interest in the Ontario Medical Foundation's annual golf event. This year we are celebrating the 20th anniversary of the OMF Golf Tournament, and we hope you can help us celebrate this milestone by making it our most impactful one yet.

On Friday, September 20, 2024, we will be taking over the fairways of Angus Glen Golf Club in Markham, Ontario, a premier golf destination, with stunning views that welcome players at all levels.

While a lot has changed since our inaugural event, one thing has stayed the same, our unwavering support of Ontario's doctors and bettering health-care in Ontario.

With your support, we will continue to raise funds to advance health equity across Ontario, overcoming barriers and paving the way for a better health-care system – one that is equitable, efficient and effective.

Let's make history together, on and off the course. We invite you to consider sponsoring this year's event. Your support will not only contribute to the success of our tournament, but also play a crucial role in shaping a healthier future for our community.

We appreciate your consideration and look forward to working with you to make a real impact on the well-being of all Ontarians.

Kindest regards,

Dr. Albert Ng, OMF President, Co-Chair

Dr. Adam Kassam, OMA Past President, Co-Chair

OMF Golf Committee

About the Ontario Medical Foundation

Established in 1967, the Ontario Medical Foundation is the charitable arm of the Ontario Medical Association.

We have expanded our mission, shifting from physicians supporting physicians to physicians championing the well-being of Ontarians, aiming to tackle social determinants of health and other systemic barriers to promote health equity. For many Ontarians, health care in their communities doesn't adequately meet their needs. New research shows that as of March 2022, 2.2 million Ontarians are without a family doctor – a significant rise from the previously reported 1.8 million.

In response, we are taking on the challenge to help advance health equity across the province in the following ways:

Enabling better health care outcomes

for Black, Indigenous, and racialized peoples, 2SLGBTQ+ communities, northern and rural/remote communities, women and seniors.

Ensuring equitable health care

by working to address social determinants of health and other systemic barriers to improve health care for all.

Empowering future doctors of Ontario

by providing bursaries to reduce the cost of tuition for those who that need it most.
